Location: Liberty, MO (Remote-ready)

SUMMARY

People-centered executive with 10+ years of leadership at SpiderOak, scaling from Support Engineer to Vice President. Proven operator across engineering, DevOps, HR, product, and customer success – with a track record of building high-trust teams and systems that scale.

I bring strategic depth, technical fluency, and systems-level thinking to everything from hiring pipelines to product roadmaps to board-level fundraising. Known for creating alignment across teams, reducing complexity, and leading with trust and clarity.

HIGHLIGHTS

- **Built and led** cross-functional teams across Engineering, DevOps, Support, HR, and Ops
- **Drove operational readiness** for \$13M Series C raise, aligning KPIs with board strategy
- **Founded and scaled** Customer Success org, increasing retention by 25% and ARR by 15%
- **Reduced hiring friction** post-fundraise: cut time-to-hire to 45 days with double candidate quality
- **Product owner for CrossClave**, aligning roadmap with direct user feedback and onboarding
- **Launched AI-based support workflows**, cutting average response time in half
- **Deep remote ops experience:** async team leadership, internal training systems, and cross-org alignment
