SUMMARY

Creative, systems-oriented operator with 10+ years leading cross-functional teams in high-trust, high-autonomy environments. I've built and scaled ecosystems across engineering, product, and customer success—always with a focus on aligning human experience with long-term platform goals.

At SpiderOak, I led multi-stakeholder initiatives that translated strategy into adoption—guiding products from idea to implementation in commercial and government markets. I'm deeply collaborative, curious about emerging tech, and most alive when building shared momentum across ambitious teams.

CORE COMPETENCIES

- Ecosystem & Community Strategy
- Product/Builder Experience Design
- Cross-Functional Stakeholder Alignment
- Platform Growth & Developer Enablement
- GTM Strategy & Program Development
- Partnership Management & KPI Design
- Remote Team Leadership & Coaching
- Narrative Building Across Technical & Creative Domains

PROFESSIONAL EXPERIENCE

SPIDEROAK

Vice President, Operations

Aug 2022 – Present

- Partnered across product, engineering, customer success, and marketing to align internal systems with ecosystem needs.
- Created and executed builder-facing programs that supported developer onboarding, implementation, and feedback loops.
- Acted as executive sponsor for strategic customer and partner relationships, resolving technical, business, and policy challenges.
- Supported decentralization of decision-making through cross-functional OKRs, tooling, and strategic communication frameworks.

Vice President, Customer Success

Oct 2018 – Jul 2022

- Built engagement programs for commercial and federal users, increasing retention and participation across early-stage communities.
- Served as internal product lead for CrossClave, shaping roadmap and feature priorities through user insight and creative feedback channels.
- Designed repeatable customer journeys and success systems that aligned with long-term product adoption goals.

Customer Success Director

Jan 2017 – Sep 2018

- Unified developer support, onboarding, and education into a scalable success program.
- Deployed AI tooling to improve content discoverability and reduce implementation friction for new builders.

PROJECTS & VENTURES

FREELANCE CONSULTANT

Jul 2013 – Present

- Advised early-stage startups on community building, developer engagement, and technical onboarding.
- Built systems for scalable storytelling, project feedback loops, and internal documentation that resonate with both builders and execs.

COMMUNITY & LEADERSHIP

RUSH CREEK LEADERSHIP TEAM

Strategic Systems & Community Design

Aug 2023 – Present

- Scaled leadership development and people systems across a 375-member org.
- Launched participation frameworks to foster alignment and decentralized ownership.

KANSAS CITY JAZZ ACADEMY

Coach & Creative Mentor

Sep 2018 – Present

- Mentor youth performers on improvisation, listening, and group dynamics—transferable skills for distributed product and creator ecosystems.

EDUCATION

B.S., History

Missouri Western State University

2000 – 2005

Trained in research, communication, and systems design—tools I use every day in complex product environments.

TOOLS & TECHNOLOGIES

Strategy & Automation

Python (pandas) • REST APIs • Notion • Jupyter • Airtable • Zapier

Ecosystem Communication

GitHub • Discord • Substack • Ghost • Beehiiv • Static site generators

Web & Community Ops

WordPress • OpenAI (ChatGPT/Whisper) • Claude • Podcast production

Collaboration

JIRA • Google Workspace • Slack • Zoom • Miro
