SUMMARY

Strategic operator and CX leader with 10+ years of experience building and scaling customer-focused operations in high-growth SaaS environments. Proven ability to design and execute cross-functional programs, align teams around strategic goals, and elevate the customer experience through data, systems, and human-centered leadership.

Led org-wide initiatives across Customer Success, Product, Engineering, and Marketing—owning everything from enablement infrastructure and journey mapping to process optimization, KPI frameworks, and cross-departmental OKRs. Adept at turning insight into action and complexity into scalable systems.

CORE COMPETENCIES

- Customer Experience Strategy & Journey Mapping
- Operational Planning, KPI Design & Dashboarding
- Cross-Functional Program Execution (Product, Sales, CS, Marketing)
- CX Enablement, Training & Onboarding
- Tech Stack Rationalization & Tool Integration
- Data-Driven Decision Making & Business Insight
- Process Design & Standardization
- Stakeholder Influence & Executive Communication

PROFESSIONAL EXPERIENCE

SPIDEROAK

Vice President, Operations

Aug 2022 – Present

- Partnered with executive leadership to build and execute strategy across Engineering, Customer Success, Product, and HR.
- Owned cross-functional OKRs and strategic planning process, aligning initiatives with customer value and business outcomes.
- Led post-Series C operating model transformation, integrating CX data pipelines into leadership dashboards for visibility and accountability.
- Managed internal enablement and onboarding programs, increasing new hire ramp velocity and improving cross-team collaboration.
- Collaborated with marketing, product, and support to refine customer journey touchpoints and improve retention outcomes.

Vice President, Customer Success

Oct 2018 – Jul 2022

- Built and scaled a cross-functional customer success org, increasing retention by 25% and contributing to 15% ARR growth.
- Led CX process refinement, reducing resolution times by 60% and improving satisfaction scores across the board.
- Served as product owner for CrossClave, embedding directly with Product and Engineering to align roadmap with customer needs.
- Audited and rebuilt the CX tech stack (CRM, helpdesk, billing), cutting friction and aligning systems with team workflows.
- Launched internal metrics frameworks and playbooks for customer engagement, onboarding, and renewal health.

Customer Success Director

Jan 2017 – Sep 2018

- Rolled out standardized engagement models for success planning and lifecycle management.
- Created cross-team training programs for CSMs and support staff to unify voice and reduce escalations.
- Deployed AI/ML-based knowledge center, cutting inbound ticket volume and improving onboarding self-sufficiency.
- Built internal CX analytics models to surface churn risk and improve upsell targeting.

Support Engineer

Jan 2014 – Jan 2017

- Led hands-on support, technical onboarding, and systems troubleshooting for B2B SaaS customers.
- Owned the billing/account infrastructure and partnered with marketing to develop onboarding content.

PROJECTS & VENTURES

FREELANCE CONSULTANT

Jul 2013 – Present

- Advised 10+ early-stage companies on CX and ops strategy, building workflows that scale and systems that reduce churn.
 - Created onboarding flows, internal enablement kits, and incentive-aligned funnels across SaaS and service businesses.
-

COMMUNITY & LEADERSHIP

RUSH CREEK VOLUNTEER LEADERSHIP TEAM

Strategy & Ops Lead

Aug 2023 – Present

- Design and lead operational systems for a 375-member community group.
 - Built mentorship and enablement programs to improve engagement and retention among volunteers and leaders.
-

KANSAS CITY JAZZ ACADEMY

Instructor & Mentor

Sep 2018 – Present

- Teach ensemble performance and creative discipline—translating complex ideas into actionable learning is core to both music and CX leadership.
-

EDUCATION

B.S., History

Missouri Western State University

2000 – 2005

Trained in systems thinking, research, and communication—foundational to customer-centered strategy work.
