## SUMMARY

Strategic operator and systems thinker with 10+ years of experience leading high-leverage initiatives in fast-scaling SaaS companies. Known for distilling ambiguity into actionable direction, aligning cross-functional stakeholders, and driving strategy grounded in real-world execution.

As VP at SpiderOak, I shaped product strategy, led customer-centric growth initiatives, and translated board-level goals into org-wide action. I thrive in cross-disciplinary environments and have a bias for clarity, speed, and impact. Comfortable working at altitude or in the weeds—always in pursuit of durable insight.

---

## CORE COMPETENCIES

- Corporate & Product Strategy
- Cross-Functional Stakeholder Alignment
- Strategic Planning & KPI Frameworks
- Business Model & Market Opportunity Evaluation
- Qualitative Insight + Quantitative Rigor
- Narrative Development & Executive Communication
- Systems Design & Operational Thinking
- GTM Feedback Loops & Customer Strategy

---

## PROFESSIONAL EXPERIENCE

---

### **SPIDEROAK**

***Vice President, Operations***

**Aug 2022 – Present**

- Partnered with CEO and finance to define and operationalize post-Series C strategy; developed KPI frameworks to align execution across teams.
- Worked horizontally across engineering, product, CX, and finance to identify cross-cutting bottlenecks and design systemic solutions.
- Shaped internal investment decisions through scenario modeling, systems audits, and resource allocation frameworks.
- Directed internal change initiatives that aligned our GTM strategy with emerging federal and enterprise opportunities.
- Known internally for asking better questions and building the connective tissue between teams, tools, and long-term goals.

***Vice President, Customer Success*****Oct 2018 – Jul 2022**

- Built customer success org from the ground up, improving retention by 25% and contributing to 15% ARR growth.
- Acted as internal GM for a flagship product line, combining direct user insight, product intuition, and roadmap experimentation.
- Brought structure to fragmented customer data and surfaced critical usage patterns to influence product priorities.
- Collaborated closely with sales, product, and execs to explore and validate new markets and expansion paths.

***Customer Success Director*****Jan 2017 – Sep 2018**

- Translated strategic customer insights into action, launching success planning and lifecycle mapping programs.
- Delivered rapid performance improvements via AI/ML support automation, reducing wait times by 50%+.
- Integrated feedback loops into marketing and GTM efforts, tightening the gap between story and substance.

***Support Engineer*****Jan 2014 – Jan 2017**

- Self-taught Stripe integration lead during payment platform transition—learned API structure, managed support flows, and trained the internal team.
- Developed onboarding and education systems to support B2B customers and reduce support load at scale.

---

**PROJECTS & VENTURES**

---

***FREELANCE CONSULTANT***

---

## **Jul 2013 – Present**

- Partnered with startup founders across fintech, education, and climate to evaluate new offerings, test pricing models, and streamline internal systems.
  - Supported product validation and go-to-market experiments using customer insight and early performance signals.
- 

## **COMMUNITY & ADVISORY LEADERSHIP**

---

### **RUSH CREEK VOLUNTEER LEADERSHIP TEAM**

---

*Strategic & Operational Leader*

#### **Aug 2023 – Present**

- Built team development pipeline and strategy planning cadence for a 375-member community group.
- Led alignment efforts and resource planning across decentralized leadership teams.

### **KANSAS CITY JAZZ ACADEMY**

---

*Instructor & Ensemble Coach*

#### **Sep 2018 – Present**

- Mentor youth musicians in real-time decision-making, collaboration, and creative risk-skills directly tied to strategic fluency and team leadership.
- 

## **EDUCATION**

---

### **B.S., History**

*Missouri Western State University*

#### **2000 – 2005**

*Trained in research, systems analysis, and communication—foundational tools for modern strategic thinking.*

---

## **TOOLS & TECHNOLOGIES**

---

### **Strategy & Analysis**

Python (pandas) • SQL • Google Sheets • Excel • Jupyter • KPI Dashboards

### **Collaboration & Ops**

Notion • Asana • Airtable • GitHub • JIRA • Google Workspace • Slack

### **Automation & API Workflows**

OpenAI APIs • REST APIs • Zapier • CRM/CS systems
