SUMMARY

Strategic operator and systems thinker with 12+ years of experience leading complex, cross-functional programs at the intersection of product, finance, engineering, and customer success. Built and scaled secure SaaS platforms in high-regulation markets, driving roadmap alignment, ops execution, and long-term value capture.

Known for combining analytical rigor with high EQ. Proven ability to define business architecture, launch new initiatives, and guide executive stakeholders through ambiguity. Thrive in environments where the right question is as important as the answer.

CORE COMPETENCIES

- Strategic Planning & Cross-Functional Execution
 - Embedded Finance & SaaS Platform Ecosystems
 - Product-Led GTM Strategy & Roadmap Prioritization
 - Financial Modeling, KPIs & Operational Planning
 - Data-Driven Process Design & Optimization
 - Stakeholder Engagement & Executive Alignment
 - Discovery, Segmentation & Competitive Intelligence
 - Fluent in Mandarin Chinese
-

PROFESSIONAL EXPERIENCE

SPIDEROAK

Vice President, Operations

Aug 2022 – Present

- Led strategic planning and execution across product, engineering, finance, and support functions for B2B SaaS portfolio.
- Co-developed GTM strategy and resource planning frameworks to support \$13M Series C raise and post-investment scale.
- Guided leadership on growth levers and trade-offs via internal KPI dashboards, scenario modeling, and systems audits.
- Partnered with finance to reshape operational forecasting, aligning burn, hiring, and market expansion plans with board priorities.
- Created internal discovery sprints to test and validate IRAD initiatives, helping to allocate capital toward highest-leverage bets.

Vice President, Customer Success

Oct 2018 – Jul 2022

- Built multi-role Customer Success org from zero, increasing customer retention by 25% and growing ARR by 15%.
- Acted as internal GM for CrossClave, collaborating with engineering and product to define roadmap and validate user pain points.
- Defined product-market fit metrics and feedback loops to support roadmap evolution and competitive differentiation.
- Owned lifecycle from post-sale onboarding to renewal forecasting, partnering with finance and GTM to reduce churn risk.
- Worked closely with product leadership on packaging and pricing experiments based on behavioral segmentation data.

Customer Success Director

Jan 2017 – Sep 2018

- Launched operational playbooks and escalation protocols that reduced issue resolution time by 60%.
- Integrated sales, support, and product ops into a single customer journey map to remove silos and identify systemic risk.
- Helped shape strategy for enterprise expansion into space and defense markets, developing high-trust relationships with federal stakeholders.

Support Engineer

Jan 2014 – Jan 2017

- Supported technical onboarding and infrastructure scaling for SMB and enterprise customers.
- Managed secure billing and account systems and translated customer needs into roadmap priorities.

PROJECTS & VENTURES

FREELANCE CONSULTANT

Jul 2013 – Present

- Partnered with startups in education, insurance, and energy to design repeatable systems for scaling ops and launching digital products.
 - Helped founders align marketing, automation, and onboarding workflows with strategic growth targets.
-

COMMUNITY & LEADERSHIP

RUSH CREEK VOLUNTEER LEADERSHIP TEAM

Strategic Ops & Mentorship Lead

Aug 2023 – Present

- Lead resource planning, process improvements, and volunteer leadership training for a 375-person community.
- Guide strategic prioritization under conditions of ambiguity, balancing near-term needs with long-term engagement health.

KANSAS CITY JAZZ ACADEMY

Instructor & Youth Mentor

Sep 2018 – Present

- Teach ensemble collaboration, adaptability, and creative discipline—core attributes for high-performing teams.
-

EDUCATION

B.S., History

Missouri Western State University

2000 – 2005

Trained in strategic reasoning, communication, and systems-level analysis—the foundation for business and ops leadership.
