SUMMARY

Strategic, security-aware technical program leader with 10+ years of experience driving cross-functional execution across engineering, customer success, and infrastructure teams. Former VP at SpiderOak, a secure communications company operating in the aerospace and national security sectors. Skilled in leading programs across the product lifecycle—from roadmap and integration to post-launch feedback and resolution.

Experienced managing deeply technical, cross-org initiatives. Partnered directly with engineering and compliance teams to shape internal controls, streamline vulnerability response, and deliver operational improvements that raised the security bar. Trusted by stakeholders across the org, from frontline engineers to board members.

CORE COMPETENCIES

- Technical Program Leadership in Security-Sensitive Environments
- Vulnerability Resolution & Risk Communication
- Cross-Org Coordination & Governance
- Secure SaaS Systems & Infrastructure Oversight
- Red Team Alignment & Threat Scenario Planning
- Process & Tooling for Distributed Technical Teams
- Internal Documentation & Strategic Reporting
- Fluent in Mandarin Chinese

PROFESSIONAL EXPERIENCE

SPIDEROAK

Vice President, Operations

Aug 2022 – Present

- Directed cross-functional programs spanning Engineering, DevOps, IT, HR, and Assurance for a secure SaaS platform used in national defense and space markets.
- Oversaw internal audit readiness and incident response processes, collaborating with security teams to tighten internal controls.
- Led cross-team coordination efforts to deliver faster response to technical gaps surfaced during Red Team-style exercises and product penetration tests.
- Presented technical and risk posture updates to executives and board stakeholders.

Vice President, Customer Success

Oct 2018 – Jul 2022

- Built and scaled a distributed customer success and support org, interfacing directly with security-conscious clients in aerospace, defense, and government sectors.
- Partnered with product and security to guide remediation planning for customer-facing vulnerabilities.
- Acted as liaison between technical teams and executive stakeholders to clarify scope, risks, and resolution strategies for high-impact issues.
- Developed success metrics and KPIs tied to customer security outcomes and contract renewals.

Customer Success Director

Jan 2017 – Sep 2018

- Drove technical issue resolution across distributed teams, aligning support, engineering, and product to reduce MTTR and boost customer satisfaction.
- Launched internal escalation protocols tied to priority levels and security impact.
- Contributed to design and iteration of secure user workflows and administrative tools.

Support Engineer

Jan 2014 – Jan 2017

- Provided direct technical support for secure communications platforms in macOS and Linux environments.
- Coordinated closely with developers to reproduce, document, and escalate security-adjacent bugs.
- Authored internal documentation and help center resources that guided secure usage.

PROJECTS & VENTURES

FREELANCE CONSULTANT

Jul 2013 – Present

- Supported founders in education, insurance, and energy sectors with automation, onboarding, and system optimization projects.
 - Delivered secure web builds, workflow automations, and integrations for data-sensitive businesses.
-

COMMUNITY & ADVISORY LEADERSHIP

RUSH CREEK VOLUNTEER LEADERSHIP TEAM

Volunteer Community Leader

Aug 2023 – Present

- Lead a 375-member volunteer team with operational planning, crisis response, and secure internal communications.
- Designed leadership and mentorship programs built on trust, service, and resilience.

KANSAS CITY JAZZ ACADEMY

Jazz Bass Instructor

Sep 2018 – Present

- Teach and mentor youth ensembles in jazz performance, with a focus on real-time communication and group cohesion.

MANY MOODS CHOIR & ORCHESTRA

President, Board of Directors

Jul 2014 – Jun 2020

- Led a regional nonprofit with oversight of board governance, operations, and event security logistics.
-

EDUCATION

B.S., History

Missouri Western State University

2000 – 2005

Built systems-thinking, research, and strategic communication skills foundational to security program leadership.

TOOLS & TECHNOLOGIES

Security & Incident Response

Internal audit coordination • Vulnerability management support • Risk documentation workflows

Programming & Data

Python (pandas) • JavaScript • HTML/CSS • REST APIs • Jupyter

Collaboration & Reporting

GitHub • JIRA • Google Workspace • Microsoft 365 • Zoom • Slack

Automation & Knowledge Sharing

OpenAI • Claude • GPT-based documentation support • Help center design

Infrastructure & SaaS

Secure SaaS platforms • Linux/macOS administration • Remote onboarding & tooling pipelines
