SUMMARY

Strategic, cross-functional executive with 10+ years in SaaS, cybersecurity, and emerging tech. Proven track record leading product marketing, customer success, and operational transformation across distributed teams. Built and scaled full-funnel marketing and GTM operations—from content and SEO to product positioning and customer onboarding. Comfortable translating complex tech into compelling narratives. Fluent in the languages of both engineering and brand.

PROFESSIONAL EXPERIENCE

SpiderOak – Vice President, Operations

Aug 2022 – Present

- Directed company-wide functions across marketing, engineering, product, and customer experience.
- Partnered with CEO to craft go-to-market strategy for government and commercial verticals.

- Integrated enterprise tooling including Salesforce and marketing automation tools.
- Spearheaded transition to a unified sales-marketing stack using Salesforce and Google Analytics.

SpiderOak – Vice President, Customer Success & Marketing

Oct 2018 – Jul 2022

- Led product marketing efforts for **CrossClave**, a secure collaboration platform.
- Built out SEO and paid acquisition strategies, and ran targeted campaigns for developer personas.
- Partnered with product teams to align roadmap with market demand and user feedback loops.
- Directed a small marketing team including demand generation, technical SEO, and website strategy.
- Managed Google AdWords, retargeting, and analytics optimization.
- Delivered strategic messaging used in federal procurement and partner channels.

Customer Success Director

Jan 2017 – Sep 2018

- Created and led onboarding flows and retention campaigns based on behavioral segmentation.
- Built bridge between support, product, and marketing to tighten feedback loop and drive roadmap.
- Launched knowledge base and product explainer series, improving conversion and reducing churn.

CONSULTING & ADVISORY PROJECTS

Freelance Product Consultant

2013 – Present

- Helped founders in fintech, media, and SaaS industries build GTM strategies and marketing pipelines.
- Delivered copy, positioning, and sales enablement assets tailored to developer audiences.
- Built end-to-end WordPress marketing sites, automations, and conversion funnels.
