SUMMARY

Empathetic, systems-oriented executive with over a decade of leadership experience scaling support, operations, and people functions in high-growth environments. Proven success transforming customer support from reactive service to strategic growth engine. Expert in aligning cross-functional teams, implementing enterprise tools, and building scalable infrastructure. Deeply familiar with the dynamics of SaaS, cybersecurity, and remote-first organizations. Passionate about delivering exceptional customer experiences, developing strong teams, and building systems that enable humans to shine.

CORE COMPETENCIES

- Customer Experience Strategy
- Support Org Design & Leadership
- Operations & Systems Architecture
- Team Scaling & People Management
- Zendesk, Intercom, HubSpot, Salesforce
- Enterprise Tooling Implementation (0365, Okta, etc.)
- Cross-Functional Collaboration
- Remote-First Team Enablement
- GTM & Lifecycle Support Ops
- DEI & Employee Experience

EXPERIENCE

SPIDEROAK – VICE PRESIDENT OF OPERATIONS

Remote | 2021–Present

- Scaled operations, HR, customer support, and IT systems across a 40-person, fully remote team supporting cybersecurity and secure communications products.
- Oversaw end-to-end customer support, reducing resolution time by 35% through automation and improved workflows.
- Implemented enterprise tooling including a company-wide Okta rollout and migration to Microsoft 365.
- Collaborated with engineering and product to integrate user feedback loops into roadmap planning.
- Led GTM alignment during space cybersecurity product launch, working cross-functionally with support, marketing, and engineering teams.

SPIDEROAK – DIRECTOR OF CUSTOMER SUCCESS

Remote | 2019–2021

- Designed and implemented new support operations frameworks, introducing ticket deflection strategies and revamping the knowledge base.
- Built internal dashboards and metrics to track CSAT, NPS, and support KPIs across teams.
- Worked directly with MSPs and government channel partners to develop custom support scripts and lifecycle engagement models.
- Helped facilitate major account expansion by providing white-glove onboarding and ongoing support for strategic partners.

SPIDEROAK – CUSTOMER SUCCESS & SUPPORT LEAD

Remote | 2015–2019

- Led support team during launch of CrossClave and other enterprise-focused products.
- Directed marketing and sales support integration, managing small design and web teams.
- Helped transition the company's marketing stack from Mailchimp to Salesforce, including campaign operations and reporting.

EDUCATION

B.S., History

Missouri Western State University

2000 – 2005

Developed research, communication, and systems-thinking skills foundational to operational leadership.

SELECTED PROJECTS & ACHIEVEMENTS

- **Customer Support Automation:** Implemented tiered ticketing and macros that improved first-response time by 48%.
 - **MSP GTM Integration:** Developed and executed lifecycle scripts with MSP partners entering federal sales channels.
 - **Remote Team Culture:** Introduced async support workflows and wellness check-ins that improved retention in distributed teams.
 - **Marketing Leadership:** Directed full-stack marketing teams for two product lines, aligning with product and sales initiatives.
-

TOOLS & PLATFORMS
