EXPERIENCE

SPIDEROAK

Vice President, Operations

2022 - Present

- Strategic partner to the CEO and executive team during major growth and M&A transitions.
- Directed enterprise-wide operations across engineering, IT, HR, DevOps, and CX.
- Oversaw Salesforce + marketing tool unification, email system migration, and compensation planning systems.
- Built internal planning cadence including OKRs, QBRs, and weekly metric reviews; aligned executive goals with team output.
- Led implementation of 0365 and Okta across the org, working directly with DevOps and compliance.
- Created performance dashboards tracking KPIs across CSAT, team velocity, and cross-functional throughput.

Vice President, Customer Success

2018 - 2022

- Launched and scaled support & CS operations for commercial, enterprise, and government customers.
- Collaborated with sales and marketing to define handoffs, messaging, and lifecycle engagement strategies.
- Increased retention by 25% and improved net revenue retention by 18% via onboarding optimization and proactive outreach.
- Designed and executed support comp structures, training materials, and feedback loops for product and marketing.
- Led the GTM launch of a secure collaboration product in new verticals (B2G, compliance-heavy).

SPECIAL PROJECTS

- **CrossClave GTM Infrastructure** - Partnered with marketing and product to coordinate messaging, onboarding, and support for a new secure product across enterprise accounts.
- **Internal Comms Toolkit** - Built async meeting architecture, launch documentation protocols, and role-specific onboarding playbooks.
- **Board & Executive Reporting** - Created high-signal executive reporting docs and board briefing materials aligned to KPIs.
- **Revenue Tooling Consolidation** - Migrated email marketing from Mailchimp to Salesforce tools, cleaned CRM workflows, and improved lead lifecycle data visibility.
