Hiring Team
Stitch Fix

Dear Stitch Fix People & Culture Team,

I've spent the last decade building the kinds of systems and shared services teams that let people thrive at work—and this role feels like an exact match. I've led people operations across fast-moving tech environments, built remote-first infrastructure, and helped executive teams translate strategy into scalable tools and workflows. I'd be thrilled to bring that experience to Stitch Fix.

At SpiderOak, I served as VP of Operations through our post-Series C growth—overseeing HR, internal systems, onboarding, documentation, performance cycles, and change management initiatives. I helped design the company's async operating cadence, collaborated closely with engineering and IT on tooling and policy, and built the connective tissue between compliance, people experience, and business outcomes.

What excites me most about Stitch Fix is the way your people philosophy meets structure with heart. I love building systems that keep things organized while staying deeply human—whether that's standing up a knowledge base, overhauling an onboarding track, or helping a team get clarity on how they're measured and supported.

Thanks for the work you do—and for considering my application. I'd love to connect.

Warmly,
Adam Tervort
