SUMMARY

Senior operations leader with 10+ years experience scaling SaaS and tech-enabled service organizations. Proven track record leading revenue operations, business systems implementation, customer lifecycle optimization, and cross-functional alignment. Known for building processes that connect vision to execution, driving high-impact outcomes across sales, marketing, customer success, and finance. Balances a systems mindset with hands-on leadership in fast-paced, high-growth environments.

CORE COMPETENCIES

- Revenue Operations & Enablement
- Business Systems Design (Salesforce, HubSpot, Asana)
- Cross-Functional Strategic Planning
- Lifecycle Optimization & GTM Alignment
- Metrics-Driven Decision Making (SQL, GSheets/Excel)
- KPI Development & Dashboard Reporting
- Vendor & Tech Stack Management
- Budgeting, Forecasting & Headcount Planning
- Process Automation & Workflow Scaling
- Team Building & Leadership Coaching

PROFESSIONAL EXPERIENCE

SpiderOak – Vice President, Operations

Aug 2022 – Present

- Led full-stack operational functions across Sales, Marketing, Engineering, Customer Success, and Finance.
- Directed Salesforce + marketing automation integration; unified CRM and lifecycle data streams.
- Built GTM processes connecting Sales, Product, and Customer Success, driving

improved onboarding, retention, and upsell rates.

- Developed KPI dashboards for executive team, focused on revenue, retention, and operational efficiency.
- Led strategic planning, OKRs, headcount forecasting, and budgeting cycles in partnership with CEO and Board.
- Managed vendor relationships for CRM, project management, and marketing tech tools.

SpiderOak – Vice President, Customer Success & Revenue Operations

Oct 2018 – Jul 2022

- Built the Customer Success function from scratch, including onboarding, engagement, and renewal workflows.
 - Owned full revenue lifecycle post-sale: customer onboarding, product adoption, retention, and expansion.
 - Partnered cross-functionally to optimize CS handoffs from Sales and drive NRR (Net Revenue Retention) growth.
 - Developed customer-facing operational assets, knowledge bases, and enablement content.
 - Led transition to a data-driven, lifecycle revenue operations model, integrating metrics into quarterly planning.
-

TOOLS & TECHNOLOGIES

- **CRM & Revenue Systems:** Salesforce, HubSpot, Mailchimp
 - **Analytics & BI:** Looker, Tableau, Google Analytics, SQL basics
 - **Project Management:** Asana, Jira, Trello, Notion
 - **Finance/HR Systems:** Rippling, Quickbooks, BambooHR
