SUMMARY

VP Operations at SpiderOak with 10+ years scaling from individual contributor to executive leadership in fast-growing SaaS. Built 5 departments from scratch while driving 15% ARR growth and 25% improvement in customer retention. Deep experience managing nascent functions across engineering, DevOps, IT, HR, finance, and customer success—exactly the cross-functional operational expertise needed for a hypergrowth startup.

Strategic generalist who excels at whatever the business needs most—from fundraising support and board preparation to pricing strategy and process automation. Proven ability to be hands-on tactical while maintaining strategic vision. Comfortable working directly with CEOs and boards to navigate the complexity of rapid scale.

CORE COMPETENCIES

- Cross-Functional Operations Leadership
- Strategic Advisory to CEO & Board
- Building & Scaling Nascent Functions
- High-Impact Project Management
- Process Design & Optimization

- Fundraising Support & Board Relations
 - Operating Rhythm & Cadence Design
 - Pricing & Business Model Strategy
 - Remote Team Building & Culture
-

PROFESSIONAL EXPERIENCE

SPIDEROAK / VICE PRESIDENT, OPERATIONS / AUG 2022 – PRESENT

- Serve as trusted advisor to CEO and executive team, providing strategic recommendations across all operational functions while managing company-wide operations spanning Engineering, DevOps, IT, HR, and Customer Success.
- Partnered with CEO and finance to secure \$13M Series C funding, preparing board materials and aligning operational KPIs with investor expectations.
- Lead high-impact cross-functional projects including pricing model overhaul, partnership exploration, and post-merger integration planning.
- Established company operating rhythm with structured cadence for OKRs, all-hands meetings, and leadership offsites in fully remote environment.
- Built scalable systems across 5 departments while maintaining pragmatic approach to current needs vs. long-term infrastructure.

SPIDEROAK / VICE PRESIDENT, CUSTOMER SUCCESS / OCT 2018 – JUL 2022

- Built customer success organization from ground up, establishing all processes, systems, and team structure while raising retention by 25% and growing ARR by 15%.

- Acted as de facto business operations lead, working directly with CEO on pricing strategy, product positioning, and go-to-market alignment.
- Led cross-functional project to implement new SaaS billing infrastructure, reducing processing errors and time by 30%.
- Represented operational perspective in executive discussions and board meetings, translating customer insights into strategic recommendations.

SPIDEROAK / CUSTOMER SUCCESS DIRECTOR / JAN 2017 – SEP 2018

- Transformed support operations through process optimization, introducing queue system that reduced backlog by 80% and resolution times by 60%.
- Managed vendor relationships and technology implementations including AI-driven chat and ML-powered help center.
- Drove cross-functional alignment between support, marketing, and sales for unified go-to-market motion.

SPIDEROAK / SUPPORT ENGINEER / JAN 2014 – JAN 2017

- Gained deep product and customer understanding through hands-on technical support, managed billing and account systems, and collaborated across teams to improve customer experience.

PROJECTS & VENTURES

FREELANCE CONSULTANT / JUL 2013 – PRESENT

- Advised 10+ founders across various industries on operational strategy, process automation, and systems design.
- Applied startup mentality to help early-stage companies establish scalable foundations while staying lean and focused on immediate needs.

COMMUNITY LEADERSHIP

RUSH CREEK VOLUNTEER LEADERSHIP TEAM / VOLUNTEER COMMUNITY LEADER / AUG 2023 – PRESENT

- Lead operations and strategic planning for 375-member organization, managing complex stakeholder relationships and resource allocation.
-

EDUCATION

B.S., History | *Missouri Western State University* | **2000 – 2005**
Developed analytical thinking, research methods, and communication skills essential to strategic operations leadership.
