SUMMARY

VP Operations driving marketplace and creator economy initiatives through data-driven strategy and operational excellence. 10+ years scaling from builder to executive, leading 5 departments while achieving 15% ARR growth and 25% improvement in customer retention. Deep experience in product strategy, pricing optimization, and community-driven growth.

Proven track record bridging technical execution, product development, and marketplace dynamics. Expert in SQL analytics, no-code automation, and AI-powered workflows. Passionate about empowering creator communities while balancing business objectives through experimentation and systematic optimization.

CORE COMPETENCIES

- Marketplace Strategy & Pricing Optimization
- Product Strategy & Go-to-Market Execution
- Data-Driven Decision Making & SQL Analytics
- Creator Community Development
- No-Code/Low-Code Platform Expertise
- Cross-Functional Operations Leadership

- SaaS Product Lifecycle Management
 - Customer Success & Retention Strategy
 - Process Automation & Systems Design
-

PROFESSIONAL EXPERIENCE

SPIDEROAK / VICE PRESIDENT, OPERATIONS / AUG 2022 – PRESENT

- Directed company-wide operations across 5 departments (Engineering, DevOps, IT, HR, Customer Success), optimizing processes through data-driven frameworks.
- Built analytical dashboards using SQL queries against Postgres databases to track KPIs and guide strategic decisions across product lines.
- Implemented no-code automation workflows reducing operational overhead and enabling teams to move faster without sacrificing quality.
- Designed pricing strategy experiments that informed product positioning and revenue optimization initiatives.

SPIDEROAK / VICE PRESIDENT, CUSTOMER SUCCESS / OCT 2018 – JUL 2022

- Built customer success organization from ideation through execution, increasing retention by 25% and ARR by 15%.
- Served as product owner for CrossClave B2B platform, developing pricing tiers, analyzing conversion funnels, and consolidating product offerings based on customer data.
- Led go-to-market strategy including e-commerce implementation, pricing optimization, and funnel analysis to identify drop-off points.
- Represented customer voice in product strategy discussions, translating community feedback into actionable roadmap items.

SPIDEROAK / CUSTOMER SUCCESS DIRECTOR / JAN 2017 – SEP 2018

- Introduced operational systems reducing backlog by 80% through process optimization and automation.
- Deployed AI-driven support tools and ML-powered help center, demonstrating early adoption of emerging technologies.
- Built bridges between support, marketing, and sales teams to create unified customer experience.
- Developed training programs ensuring quality and consistency across customer-facing teams.

SPIDEROAK / SUPPORT ENGINEER / JAN 2014 – JAN 2017

- Delivered technical support while building deep understanding of customer needs and product usage patterns.
- Collaborated with marketing to develop technical content and optimize customer onboarding experiences.

PROJECTS & VENTURES

FREELANCE CONSULTANT / JUL 2013 – PRESENT

- Supported 10+ founders in building scalable digital systems using no-code platforms including Webflow, Airtable, and Zapier.
- Optimized web funnels and automated operations across education, solar, and publishing verticals.
- Created marketplace integrations connecting e-commerce platforms with automation tools.

COMMUNITY LEADERSHIP

RUSH CREEK VOLUNTEER LEADERSHIP TEAM | VOLUNTEER COMMUNITY LEADER | AUG 2023 – PRESENT

- Lead operations for 375-member community, demonstrating ability to balance diverse stakeholder needs while maintaining quality standards.

AMERICAN JAZZ MUSEUM | WEBFLOW DEVELOPER & DIGITAL STRATEGY | 2022 – PRESENT

- Manage CMS migration to Webflow, building custom integrations and automating content workflows.

EDUCATION

B.S., History | *Missouri Western State University* | **2000 – 2005**
Developed analytical thinking and research skills foundational to data-driven strategy work.

TOOLS & TECHNOLOGIES

Data & Analytics: SQL (Postgres - extensive query writing for finance, user statistics, multi-tenant schemas), Power BI, Mixpanel, GA4, Python analytics

No-Code/Low-Code Platforms: Webflow (CMS migrations, integrations, automation), Airtable, Zapier, n8n, Apple Shortcuts, Notion

AI & Automation: OpenAI, Claude, Cursor, Windsurfer, AI-assisted development workflows, Python/JS automation, API integrations

Product & Marketplace Systems: Shopify, WooCommerce, eBay, Stripe, PayPal, subscription billing systems, e-commerce analytics

Engineering & DevOps: GitHub Actions, Docker, Kubernetes, AWS, Azure, Okta, API development

Program Management: Jira, Asana, Confluence, Figma, Atlassian suite

Marketing & Growth: Salesforce, HubSpot, Google Analytics, conversion funnel optimization
